Use of Developmental Disability Funding by LMEs to Transition Individuals from State Operated Developmental Centers
9/1/08-12/31/08**

LME	Number of individuals transitioned or in process of transition	Developmental Center	State Funding Projected	State Funding Used to Date	LME Comments
Alamance-Caswell-Rockingham	0	N/A	0	0	Past state funding cuts have made it a challenge to meet the needs of non-Medicaid individuals currently being served in the community. However, historically ACR has collaborated with Murdoch Center and one ICF-MR provider in their catchment area to transition individuals from Murdoch to their ICF-MR facilities in the community. Five individuals have been transitioned since 2006 with two more individuals projected to transition.
Albemarle	0	N/A	0	0	No funds utilized or consumers moved during this period.
Beacon	0	N/A	0	0	Two individuals were transitioned to the community from the Caswell Center MR/MI unit using waiver funding only. The guardian of an individual at another center would consider community placement, however, due to acute medical needs a residential setting has not been found. The guardian of another individual is opposed to community placement. There are five consumers on the "high profile" list from Caswell. Beacon is working closely with Caswell Family Services Coordinator.
